

United Communications Minitor repair price change

Dear Valued Customer,

Happy New Year!

Thank you for supporting United Communications as your Minitor pager and Motorola Solutions accessories, batteries, and parts provider. Everyone here at UCC sincerely appreciates you, and we will continue working hard to earn your trust. The supply

chain issues we faced across our portfolio in 2022 may start, in certain pockets, to improve in Q2 2023. In the meantime, we are maximizing our inventory at every opportunity to help alleviate delays as much as possible. In the interim, we still recommend that you consider stocking your most popular items, as there will still be periods where product availability will be challenging.

We often get asked if we still repair Minitor pagers- Well the answer is a resounding Yes! We Repair the Minitor II, III, IV, V and out of warranty Minitor VI pagers and have been repairing pagers for over 30 years. Every team member at United Communications, especially our St. Louis, MO based technicians that repair your Minitor pagers, work hard to provide the highest quality service. Due to higher parts and labor costs, we have to adjust our repair pricing. As you may recall, we have not had a price increase on our Repair Services since 2018. For all orders received on or after January 27th, 2023, we will increase our base cost on a Minitor Pager repair by \$10.00 per pager.

The Staff at UCC greatly appreciates your business, and we will continue to work hard to earn your continued support.

If you have any questions, don't hesitate to call our Sales Staff at 888-763-7550 Ext 103 or you can call me directly.

Thank you,

Laura Murphy
VP/General Manager
888-763-7550 Ext 108
from United Communications.
